

## **1972 TR6 CP Series, Parts Required**

A fire damaged TR6 requires anything & everything forward of the fuel tank for its restoration back to full health.

### **Body**

- Bonnet including fastener & catch assembly
- Doors or door skins, both RH & LH
- Front guards, both RH & LH
- RH bumper bracket
- Grille & black surround
- Door handles & locks
- Door catches & latches
- Wiper arms
- Fuel tank

### **Cockpit**

- All switches, instruments, cables & crashpads
- Centre console bracket, (dash to floor)
- Steering column outer shell & all brackets & componentry
- Steering wheel
- Heater, vents & ducts
- Gearstick
- Rear view mirror & sun visors
- Windscreen capping strip
- Any cockpit trim, door cards etc
- Ashtray

### **Brake/ Clutch**

- Clutch Master Cylinder
- Brake master cylinder & booster

### **Electrical**

- Sidelights bodies mounted on front guards
- Front indicator light bodies (above bumper)
- Relays, Fuse Box, OD solenoid, Wiper Motor, Horns, Starter Motor

The list is not exhaustive & I will consider anything in good & restorable condition. This is your chance to clear out the garage & see those parts you have put aside go to a worthy cause.
